Esatto

198L Hybrid Chest Fridge/Freezer

Model: ECF198W2

QSG V1.2

Let's get started!

Installation Tips

- Two person installation: Use two or more people to move and install the appliance. Failure to do so can result in back or other injury.
- Freestanding design: This appliance is designed to be freestanding only, and should not be recessed or built-in.
- Placement: This appliance must be properly positioned on a dry, sturdy, level surface that is strong enough to support it when it is fully loaded. It should be placed in an indoor area that is well ventilated and away from direct sunlight.
- Ambient temperature: The ambient temperatures must correspond to the climate class (SN/N/ST/T) indicated on the rating plate of the appliance.
- Clearances: Ensure that air can circulate freely around the back of the cabinet, which is necessary to cool the compressor and condenser. Allow at least 20cm clear space at the back, 20cm at the sides of the unit and 70cm between the top and any surface above.

Note: For further installation instructions please refer to the user manual pages 10–11.

First Use

When starting up for the first time, keep the refrigerator still for half an hour before connecting it to power supply.

Before putting any fresh or frozen foods in the fridge, ensure the fridge has run for 2–3 hours, or for at least 4 hours in summer when the ambient temperature is high.

Temperature Control

The temperature controls are located on the outside of the fridge. This unit can operate as a fridge or a freezer.

To set your desired temperature setting, rotate the control dial on the control panel.

- Set the dial to 'cooling' to use as a fridge.
- Set the dial to 'freezing' to use as a freezer.

Product Details

Size (mm) / **850H × 816W × 550D**

Energy Rating / **Fridge: 5 Stars / Freezer: 3 Stars**

Warranty / **2 Years**
